

## Cell Sorting Request Form

Requesting Scientist

Department/Principal Investigator

Phone Number

Department Address

Email

The work conducted is part of the following project(s):

Project name(s):  
(Projektbezeichnung/en)

Project number:  
(DFG, BMBF, EU, ...)

Funding period:

### Biological Safety Classification:

The samples belong to the safety group  S1  S2 Other Risk Group

Sample information

Cell type/species:   Permanent Culture  Primary Culture

Transfection:  transient  stable Viral infection

We have the following permission (registration no. / project title / responsible PI):

### Cell cultures have to be free of mycoplasma!

Has the sample been tested for mycoplasma?

(Please provide us a copy of the test results)

no  yes date

## Cell Sorting Conditions:

Please indicate all fluorochromes for the sorting panel:

Please indicate the number of samples:

How many cells to record for analysis (events)?

Please estimate the concentration of the sample(s) you will bring:

Number of populations to sort per sample:

Concentration of populations to be sorted (or relative abundance):

- I declare that all the details given above are correct.
- I accept to pay the user fee according to the attached price list.

I agree to acknowledge the use of the Signalling Factory & Robotics facility infrastructure in my publications. Members of the core facility will support me in writing the material and methods related to the work performed. I will inform the Signalling Factory & Robotics facility about such publications by sending a PDF of the publication to toolbox@bioss.uni-freiburg.de
